Online. Register at: www.lsftraining.coursestorm.com

Medication-Assisted Treatment (MAT)
WITH PRESENTER: Dr. Akiva M. Daum, MD, FAPA

Gain valuable, in-depth insight into how to best support individuals with opioid use disorder (OUD). MAT is an evidence-based practice for OUD, but medication is only half the battle. Even with successful prescribing, individuals can struggle with understanding their diagnosis, the need for continued treatment, and developing effective coping strategies.

ATTENDEES WILL LEARN ABOUT:
* MAT medications including buprenorphine, Naltrexone-ER, and Methadone
* How MAT medications work – what they do and don’t do
* How to recognize intoxication or withdrawal
* How to work through societal and self-imposed stigma
* Additional ways to support individuals receiving MAT

Dr. Akiva Daum is a subject matter expert on MAT and an engaging trainer for SAMHSA’s Opioid Response Network. Adequate time will be provided for Q & A.
